The pelican landed in the hangar on The dawn. Sheldon was the first to step out wearing his white and teal armor. He carried his helmet under his arm. A hole in the visor where an elite zealot stabbed him in the eye.

Every one else filed out.

They were greeted by Master Chief and Cortana.

"Long time no see, eh guys?" Master chief joked. "Good to see you to, John," Sheldon replied. Billy yawned . So he wandered off to find the chronological preservation chambers.

They wouldn't be there for years.

All of the sudden, loud crashing was heard from out side. Sheldon, Johnny, and master chief run to the observation deck by the bridge.

As they make their way to observation , they see many panicked autotopians run pased them and UNSC units arming themselves

Panic raced through units rad the trio came to the observation and

open the window shields . "Aw, crap" said Sheldon.

"What?"

"Nedelsh's forces."

Bourding pods were launched onto the ship as they prepared. The pods connected to the dawn with a thunk!.Lithianians piled out of boarding pods and attacked. Sheldon got cornered by three Lithianians with energy swords.

"HELP?!" Sheldon yelled." No, Hu?"

In one swift movement, Sheldon punched the lithianians, knocking them out cold.

All of the sudden, loud booms shook the dawn.

" Suicide ships!" yelled Johnny. The Dawn broke in half and oxygen sped out fast. Sheldon got stuck on the opposite side and got over run by lithianians.
